To know the Holy Spirit is to know Him as an ever-present, loving Friend and mighty Helper. From the Scriptures, Charles H. Spurgeon shows that the Holy Spirit wants to be our Comforter, Teacher, and mighty Advocate. The miraculous life the early Christians lived amazed the world and "turned it upside down." Today, many are experiencing the same healing, miracles, and other gifts of the Holy Spirit, along with the love, joy, and peace that He freely gives. Discover how you can walk daily in the presence of the Holy Spirit and experience His miracle-working power in your own life.

Groundbreaking new research shows that by grabbing hold of the three-step "loop" all habits form in our brains--cue, routine, reward--we can change them, giving us the power to take control over our lives. "We are what we repeatedly do," said Aristotle. "Excellence, then, is not an act, but a habit." On the most basic level, a habit is a simple neurological loop: there is a cue (my mouth feels gross), a routine (hello, Crest), and a reward (ahhh, minty fresh). Understanding this loop is the key to exercising regularly or becoming more productive at work or tapping into reserves of creativity. Marketers, too, are learning how to exploit these loops to boost sales; CEOs and coaches are using them to change how employees work and athletes compete. As this book shows, tweaking even one habit, as long as

it's the right one, can have staggering effects. In *The Power of Habit*, award-winning New York Times business reporter Charles Duhigg takes readers inside labs where brain scans record habits as they flourish and die; classrooms in which students learn to boost their willpower; and boardrooms where executives dream up products that tug on our deepest habitual urges. Full of compelling narratives that will appeal to fans of Michael Lewis, Jonah Lehrer, and Chip and Dan Heath, *The Power of Habit* contains an exhilarating argument: our most basic actions are not the product of well-considered decision making, but of habits we often do not realize exist. By harnessing this new science, we can transform our lives.
