While psychology did not emerge as a separate discipline until the late 1800s, its earliest history can be traced back to the time of the early Greeks. During the 17th-century, the French philosopher Rene Descartes introduced the idea of dualism, which asserted that the mind and body were two entities that interact to form the human experience.

history of psychology. Some would start with ancient Greece; others would look to a demarcation in the late 19th century when the science of psychology was formally proposed and instituted.

*History of Psychology | Noba*  
The Beginning of Psychology  
Wundtian Psychology and Structuralism. Wilhelm Wundt (1832-1920) is credited with forming the first psychology laboratory (exclusively for psychological work) in Leipzig, Germany in 1879. This starting date is rather arbitrary, and historians have argued that other dates (and people) are defensible.

*Pennsylvania State University*

The approaches that psychologists have used to assess the issues that interest them have changed dramatically over the history of psychology. Perhaps most importantly, the field has moved steadily from speculation about behavior toward a more objective and scientific approach as the technology available to study human behavior has improved (Benjamin & Baker, 2004).
