these developments with a new way of thinking. This book points the way for the design of interiors in this newly complex world and will be indispensable for students, practitioners and theoreticians. The book is divided into four chapters that explore aspects of the human experience of the interior, from man's earliest search for shelter to an outline of past and current thinking on design, psychology and well-being. An epilogue looks at such future concerns as population growth and sustainability and suggests how the design profession can confront these challenges. Rethinking Design and Interiors is a fascinating exploration of how art and science can come together for the benefit of those who inhabit the built environment.

This volume presents 25 essays on the philosophy of design. With contributions originating from philosophy and design research, and from product design to architecture, it gives a rich spectrum of state of the art research and brings together studies on philosophical topics in which design plays a key role and design research to which philosophy contributes. Coverage zooms in on specific and more well-known design disciplines but also includes less-studied disciplines, such as graphic design, interior architecture and exhibition design. In addition, contributors take up traditional philosophical issues,

such as epistemology, politics, phenomenology and philosophy of science. Some essays cover philosophical issues that emerge in design, for instance what design can do in addressing societal problems, while other essays analyze mainstream philosophical issues in which design is part of the argument, as for instance abduction and aesthetics. Readers will discover new research with insightful analyses of design research, design thinking and the specificity of design. Overall, this comprehensive overview of an emerging topic in philosophy will be of great interest to researchers and students.
