fascinating anecdotes, relevant clinical examples, and vivid online animations. It illustrates how each organ system is designed to function and what happens when a system fails. Written by well-known educator Barbara Herlihy, this text is an ideal solution for students whose background in the sciences is limited. Colorful cartoons use humor to clarify and reinforce the content, making it more memorable, accessible, and easy to understand. Engaging learning and review features include Re-Think questions, Ramp It Up! and As You Age boxes, Sum It Up! boxes synthesizing key concepts, and Do You Know boxes with clinical scenarios and historical vignettes. Fascinating analogies, examples, and anecdotes make learning easier and bring science to life, even for students who have little or no background in biology, chemistry, or physics. Full-color illustrations simplify difficult concepts and complex processes, accurately depicting anatomy, physiology, and disease. Focus on medical terminology includes Medical Terminology and Disorders tables with pronunciations, derivations, and word parts, along with references to commonly used medical terminology. Evolve website enhances student understanding with animations, interactive learning activities, and review tools. Study guide offers fun and practical exercises as well as multiple-choice practice tests to help students review, understand, and remember basic A&P. Sold separately. Key terms and objectives are listed at the beginning of every chapter to set learning goals and expectations, with key terms including a page reference, pronunciation guide, and definition in a comprehensive glossary. NEW! Updated content throughout reflects the latest research on physiology, pathophysiology, and pharmacology, especially with regard to the immune system. NEW Work It boxes are highlighted with a special icon, and emphasize the importance of exercise and physical activity on body systems. NEW What If? questions (e.g., "What would happen if you were deficient in
