B1 is the lightest natural tooth shade in the Vita shade guide. With Porcelain Dental Veneers its possible to achieve teeth shades that are much whiter than B1. Below you can find the shade guides that we use in cosmetic dentistry to identify the colour of the tooth and to demonstrate it to the patient. A shade guide can be used for dental veneers, dental crowns, to demonstrate the effects of teeth whitening and much more.

Charles: You are correct. The Chromoscop DOES match up better with 3D than other shade systems. The Chromoscop has some of the "pinks" and "reds" in it, the same as the 3D guide. Attached is a decent guide converting both shade systems. Keep in mind it is only a GUIDE, use your eyes for the final decision.
