Sticking to its guns, Ducati bestowed the Multistrada with an air-cooled, 992cc 2-valve engine with twin plug heads for a clean burn. It's a gutsy little unit that punts the Multistrada to a manageable 85mph cruising speed with plenty in reserve for German autobahn use. The six-speed gearbox is notchy but well-spaced to make the most of a strong midrange and peppy top end. Fuelling by way of ...

The 1000 suffered from more 'common' problems than the 1100 the worst of these was a problem with 'soft' valve guides (some 2003-2006 bikes). There is a list of engine numbers around somewhere on the forum that details exactly which bikes were affected. Ducati have been fairly good about rectifying the problem even for those out of warranty.

The Pantah Desmodue brought Ducati into the modern world of motorcycles. They were immediately more reliable than the earlier bevels, and established a blueprint that continues today. The proliferation of models is such that it can be difficult to determine the exact specification of an example. This book provides a guide to all of the individual models, their attributes and pitfalls, and what to look for when purchasing. When new, the Ducati Desmodue twins provided state-of-the-art handling and performance, and they still can.

A definitive account of the popular Ducati Desmodue - the reliable, affordable, high-performance motorcycle range that boasts one of the most successful Italian motorcycles of all time, the Ducati Monster, and is still in development today. Including full production histories, comprehensive specification details and owners' experiences, this new book covers the history of Ducati and the rise of the brand in the 1970s and Grand Prix racing with Fabio Taglioni's desmodromic valve engine design. The world-beating TT2 and TT1 racers are covered along with the best-selling Ducati Monster, the Desmodue 900SS and the SportClassic range. With the Scrambler, and new Ducati factories in Thailand and Brazil, the Desmodue story is brought right up to date - a story based a wonderful corner of Italy, some very special motorcycles and the astonishing people who made it all happen. Fully illustrated with 211 colour photographs.

Kebanyakan orang memiliki obsesi masa muda yang diharapkan terwujud setelah ia dewasa. Sebagian berhasil mewujudkannya, sebagian tidak. Dulu, Bakhtiar Rahman (BR) bertekad sebelum usia 30 tahun harus punya mobil Sport Eropa, serta tamasya keliling dunia. Setelah dipikir-pikir, baginya obsesi itu terdengar sedikit bodoh dan harus diakui, kekanak-kanakan. Maka, ia mengubah obsesi pada masa muda tadi ke obsesi baru yang waktu itu pernah sangat ia nikmati, sepeda motor. Sebagai "anak motor", petualangan BR sudah bukan lagi sekadar hobi iseng. Kini ia hampir khatam menjelajahi Indonesia, Jawa, Sumatra, Kalimantan, Sulawesi, hingga Nusa Tenggara. Rute jelajahnya pun meluas hingga India, Nepal, Tiongkok, Maroko, Eropa, dan Amerika Serikat! Baik tur dalam grup motor maupun petualangan solo riding (ya, jalan-jalan mengendarai motor sendiri), mengajari untuk mengenal alam, keberagaman manusia, menertawai kebodohan diri, toleransi, yang pada gilirannya akan menguatkan cinta kepada Sang Pencipta. Puluhan tahun berkendara, semua rute yang ditempuh selalu meninggalkan kesan mendalam meski lebih seringnya melenceng dari ekspektasi. Satu yang pasti, selalu ada teman-teman baru pada setiap tempat yang disinggahi, selalu ada bikers brotherhood di mana pun kita ingin menjelajah! [Mizan, Bentang Pustaka, Bfirst, Otomotif, Touring, Traveling, Islam, Indonesia] Seri Kisah Perjalanan Bentang

Feeling states including emotional experiences are pervasive to human functioning. Feeling states deeply influence the individual's effort, attention, decision making, memory, behavioural responses, and interpersonal interactions. The sporting environment offers an ideal setting for the development of research questions and applied interventions to improve the well-being and well-functioning of the people involved. This ground-breaking book is the first to offer cutting-edge knowledge about contemporary theoretical, methodological, and applied issues with the contributions of leading researchers and practitioners in the field. Feeling states in sports are comprehensively covered by adopting an international and multi-disciplinary perspective. Section I covers most relevant conceptual frameworks including emotion-centred and action-centred approaches, challenge and threat evaluations, an evolutionary approach to emotions, and the role of passion in the experience of emotion. Section II focuses on interpersonal aspects related to emotions and regulation encompassing social and interpersonal emotion influence and regulation, social identity and group-based emotions, and performance experiences in teams. Section III presents applied indications surrounding emotional intelligence training, and emotional regulation strategies including imagery, self-talk, the use of music, mindfulness, motor skills execution under pressure, self-regulation in endurance sports, and the use of technology. Finally, Section IV examines issues related to athlete well-being including the role of emotions in sport injury, emotional eating, and mental recovery. Feelings in Sport: Theory, Research, and Practical Implications for Performance and Well-being is an essential source for sport psychology practitioners, researchers, sports coaches, undergraduate, and postgraduate students.

GSX-R600 (1997-2000)

It's the thick of the mid-1990s boom, and David M. Gross is racking up billable hours for a Manhattan corporate law firm and thinking that there must be more to life. Out of the blue, a friend calls with a tantalizing and risky proposal: How would he feel about moving to Bologna to help turn around a legendary, down-on-its-luck Italian motorcycle company, known for its dominance on the track and its inability to turn a profit? After a brief soul-search and popping his first (unintentional) wheelie during his maiden ride on the company's monstrous superbike, he signs on. And so Gross heads to Bologna, fabled home of marbled meats, radical leftist politics, and bespoke shoes, diving into his new life as the "corporate image consultant" to gearheads and learning to navigate the giddy mores of Bolognese society. He meets the CEO, who can relax only on planes between meetings; the manic, bellicose bike designer, convinced that only his

genius can save the company; and the director of the museum, obsessed by the factory's role in World War II. Gross sparks the business's "spectacularization" with sexy ad campaigns starring factory workers who, when not on strike, strut to the espresso machine clad in Versace. Above all, he falls in love with motorcycles, seduced by speed, and realizes that becoming a better rider means tapping into dormant parts of his self that, as it turns out, were just waiting to be unleashed. And when he picks up a handsome, young-and closeted-skinhead, things really get interesting . . . In sensuous, hilarious, and wildly entertaining prose, Gross pens a wry yet ecstatic love letter to an uproarious city and its style-obsessed denizens, and to the motorcycle that gave him the freedom to live life at its very fastest.
