The history of the Jews in Turkey covers the 2400 years that Jews have lived in what is now Turkey. There have been Jewish communities in Anatolia since at least the fifth century BCE and many Spanish and Portuguese Jews expelled from Spain by the Alhambra Decree were welcomed into the Ottoman Empire in the late 15th century, including regions now part of Turkey, centuries later, forming the bulk of the Ottoman Jews. Today, the vast majority of Turkish Jews live in Israel, while modern-day Turke

The Alliance Israelite Universelle, a French-Jewish organization founded in 1860, occupies a crucial place in the history of Sephardi communities in the modern period. In the fifty years after its creation, the Alliance established a vast network of schools in the lands of Islam for the purpose of "civilizing" the local Jewish communities and remaking them in the idealized self-image of French Jewry. This study, drawing on the author's extensive research in the archives of the Alliance in Paris, focuses on the work of the Alliance among Turkish Jewry, one of the communities most strongly affected by the organizations' activities. Although the Alliance played a conclusive role in the Westernization of Turkish Jews, it was also the unwitting catalyst for the emergence of new political movements such as Zionism, which turned away from the Alliance's ideology and ultimately threatened the survival of its schools. This book illuminates an important episode in the history of Sephardi and French Jewries as they interacted through the Alliance Israelite Universelle and draws important conclusions about the transformation of European as well as Middle Eastern Jewries in the modern era.

Analyses the minority politics of the Turkish republic and the country's ambivalent policies regarding Jewish refugees and Turkish Jews living abroad.

This book exposes Turkish policies concerning European Jews during the Hitler era, focusing on three events: 1. The recruitment of German Jewish scholars by the Turkish government after Hitler came to power, 2. The fate of Jews of Turkish origin in German-controlled France during WWII, 3. The Turkish approach to Jewish refugees who were in transit to Palestine through Turkey. These events have been widely presented in literature and popular media as conspicuous evidence of the humanitarian policies of the Turkish government, as well as indications of the compassionate acts of the Turkish officials vis-à-vis Jewish people both in the pre-war years of the Nazi regime and during WWII. This volume contrasts the evidence and facts from a wealth of newly-disclosed documents with the current populist presentation of Turkey as protector of Jews.

This book traces the global, national, and local origins of the conflict between Muslims and Jews in France, challenging the belief that rising anti-Semitism in France is rooted solely in the unfolding crisis in Israel and Palestine. Maud Mandel shows how the conflict in fact emerged from processes internal to French society itself even as it was shaped by affairs elsewhere, particularly in North Africa during the era of decolonization. Mandel examines moments in which conflicts between Muslims and Jews became a matter of concern to French police, the media, and an array of self-appointed spokesmen from both communities: Israel's War of Independence in 1948, France's decolonization of North Africa, the 1967 Arab-Israeli War, the 1968 student riots, and François Mitterand's experiments with multiculturalism in the 1980s. She takes an in-depth, on-the-ground look at interethnic relations in Marseille, which is home to the country's largest Muslim and Jewish populations outside of Paris. She reveals how Muslims and Jews in France have related to each other in diverse ways throughout this history—as former residents of French North Africa, as immigrants competing for limited resources, as employers and employees, as victims of racist aggression, as religious minorities in a secularizing state, and as French citizens. In Muslims and Jews in France, Mandel traces the way these multiple, complex interactions have been overshadowed and obscured by a reductionist narrative of Muslim-Jewish polarization.

A powerful history of Jewish art collectors in France, and how an embrace of art and beauty was met with hatred and destruction In the dramatic years between 1870 and the end of World War II, a number of prominent French Jews—pillars of an embattled community—invested their fortunes in France’s cultural artifacts, sacrificed their sons to the country’s army, and were ultimately rewarded by seeing their collections plundered and their families deported to Nazi concentration camps. In this rich, evocative account, James McAuley explores the central role that art and material culture played in the assimilation and identity of French Jews in the fin-de-siècle. Weaving together narratives of various figures, some familiar from the works of Marcel Proust and the diaries of Jules and Edmond Goncourt—the Camondos, the Rothschilds, the Ephrussis, the Cahens d’Anvers—McAuley shows how Jewish art collectors contended with a powerful strain of anti-Semitism: they were often accused of “invading” France’s cultural patrimony. The collections these families left behind—many ultimately donated to the French state—were their response, tragic attempts to celebrate a nation that later betrayed them.

This book studies the role of the Ottoman Empire and Republic of Turkey in providing refuge and prosperity for Jews fleeing from persecution in Europe and Byzantium in medieval times and from Russian pogroms and the Nazi holocaust in the nineteenth and twentieth centuries. It studies the religiously-based communities of Ottoman and Turkish Jews as well as their economic, cultural and religious lives and their relations with the Muslims and Christians among whom they lived.

Praise for the French edition: "The most complete and thorough historical synthesis ever written in a European language on the Jewish communities of the Balkans and Turkey."—Michel Abitbol, L'arche "A rich and too-little-known history that successfully avoids twin snares: the myth of the irreparable decadence of oriental Judaism and the myth of the lost golden age of Spain."—Alain Dieckhoff, Les Nouveaux Cahiers "The authors illuminate the variety of responses—between the poles of westernizing and holding onto tradition—offered by these Jewish societies of the Levantine Sephardi cultural area to the processes of modernization, as well as their startling receptivity to the new ideologies of zionism and socialism that marked the end of the nineteenth century."—Annales

The neutrality maintained by Turkey during most of the Second World War enabled it to rescue thousands of Jews from the Holocaust in the Nazi-occupied or collaborating countries of Europe. This book shows how in France, the Turkish consuls in Paris and Marseilles intervened to protect Turkish Jews from application of anti-Jewish laws introduced both by the German occupying authorities and the Vichy government and rescued them from concentration camps, getting them off trains destined for the extermination chambers in the East, and arranging train caravans and other special transportation to take them through Nazi-occupied territory to safety in Turkey. 'an important and unique addition to the vast scholarship available on that tragic era' Rabbi Abraham Cooper
