Martin Heidegger's work is pivotal in the history of modern European philosophy. The New Heidegger presents a comprehensive and stimulating overview of, and introduction to, the work of one of the most influential and controversial philosophers of our time. Heidegger has had an extraordinary impact on contemporary philosophical and extra-philosophical life: on deconstruction, hermeneutics, ontology, technology and techno-science, art and architecture, politics, psychotherapy, and ecology. The New Heidegger takes a thematic approach to Heidegger's work, covering not only the seminal Being and Time, but also Heidegger's lesser known works. Lively, clear and succinct, the book requires no prior knowledge of Heidegger and is an essential resource for anyone studying or teaching the work of this major modern philosopher.

A new play from an award-winning playwright, published as part of the innovative Abbey Theatre playscript series On the day of her father's funeral, Eva - a young woman - is still haunted by the betrayal she witnessed from her childhood haven - the treehouse in the garden. On the same day another woman, Magda, relives the ghosts of another hiding place and a different betrayal - ghosts from which she still seeks forgiveness. Interweaving lives and secrets Treehouses is a magical tale of refuge, treachery and of love lost and found.

Ancient Greek Beliefs explores the mysteries of the ancient myths and religious beliefs of a great people. The text is divided into three sections, Greek mythology, the ancient Greeks, and conclusions. A brief history and lengthy glossary are included. The book is designed as a basic text for the introduction to ancient Greek mythology and beliefs, and the text muses about the religious lessons we might learn from them. It contains abridged stories of Greek mythology, including the extant Greek plays, and considers portions of the works of the great writers, including Aeschylus, Euripides Hesiod, Homer, Plato, and Sophocles. It opens a comprehensive window into the lives of these great ancient people.

Humanity pushed its way to the stars - and encountered the Gbaba, a ruthless alien race that nearly wiped us out. Earth and her colonies are now smoldering ruins, and the few survivors have fled to distant, Earth-like Safehold, to try to rebuild. But the Gbaba can detect the emissions of an industrial civilization, so the human rulers of Safehold have taken extraordinary measures: with mind control and hidden high technology, they've built a religion in which every Safeholdian believes, a religion designed to keep Safehold society medieval forever. 800 years pass. In a hidden chamber on Safehold, an android from the far human past awakens. This "rebirth" was set in motion centuries before, by a faction that opposed shackling humanity with a concocted religion. Via automated recordings, "Nimue" - or, rather, the android with the memories of Lieutenant Commander Nimue Alban - is told her fate: she will emerge into Safeholdian society, suitably disguised, and begin the process of provoking the technological progress which the Church of God Awaiting has worked for centuries to prevent. Nothing about this will be easy. To better deal with a medieval society, "Nimue" takes a new gender and a new name, "Merlin." His formidable powers and access to caches of hidden high technology will need to be carefully concealed. And he'll need to find a base of operations, a Safeholdian country that's just a little more freewheeling, a little less orthodox, a little more open to the new. And thus Merlin comes to Charis, a mid-sized kingdom with a talent for naval warfare. He plans to make the acquaintance of King Haarahld and Crown Prince Cayleb, and maybe, just maybe, kick off a new era of invention. Which is bound to draw the attention of the Church...and, inevitably, lead to war. It's going to be a long, long process. And David Weber's epic Off Armageddon Reef 2. By Schism Rent Asunder 3. By Heresies Distressed 4. A Mighty Fortress 5. How Firm A Foundation 6. Midst Toil and Tribulation 7. Like A Mighty Army 8. Hell's Foundations Quiver 9. At the Sign of Triumph At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

Amy has a new step-dad, a new step-sib on the way, and a new living situation with her dad in Chicago. Is everyone conspiring to ruin her life?

A sequel to the author's Song in the Silence follows young Lanen Kaeleer on her continuing discovery of love and the dragons of legend. 10,000 first printing.

In the heart of Grey Street in Central Durban stands a dilapidated old building called AK Mansions. Since 1902 when the first batch of tenants moved in, and up to today, the building exudes a communal atmosphere. Amidst the hustle and bustle of city life, the tenants of AK Mansions are never short of excitement, drama or pain. Everyone knows every body and their stories. These are their stories. ... a collection of 11 different short stories, all taking place, at different times, in Flat 9. This book has been added to the Grey Street Literary Trail in Durban by the University of KwaZulu-Natal who have organized the Literary Tourism Project.

This novel from la suspense pro is part World War II thriller and part modern-day mystery (Chicago Tribune). A vintage suitcase is pulled from the trash by a young New York advertising executive brainstorming a campaign on her way to work. The account is Steinbach Luggage, the German answer to Louis Vuitton and Hermes. There is only one problem with the vintage bag like Steinbach's CEO, it is a Holocaust survivor, as evidenced by the name and other personal data painted on it. The suitcase is hallowed memorabilia, and no one dares open it until it is determined if the owner is still alive. The Holocaust survivor turns out to be an eighty-nine-year-old member of New York's Jewish aristocracy, a prominent philanthropist and surgeon. When he gives his consent, the documents inside the suitcase pique the interest of a New York Times reporter whose investigation begins to unravel a devastating secret that has been locked away since the day Dachau was liberated. From an author whose work has been praised by the New York Times for sharp insight into character, The German Suitcase is a unique thriller focusing on the Nazi doctors who were conscripted by the Secret Service and given the task of carrying out Hitler's Final Solution, delving deeply into questions that have been asked ever since the war ended. What is a war crime? What is guilt? How is justice best served? It is a novel that questions the very nature of identity, and ultimately asks if a lifetime of good deeds can make up for past acts of evil.

Godsmack's founder and front man Sully Erna has been immersed in the world of rock ever since he got his first drum set. Given his achievements, that early start might suggest that his career was a straight shot to the top. The truth is, Erna took so many detours during the years between his first instrument and Godsmack's first contract that, more than once, he nearly forgot his destination. In The Paths We Choose, he relates the turbulent story of his life before the platinum albums and packed arenas. Sully's story shows us that whatever hardship we may face, ultimately, our choices determine our destiny. He's made the most of every advantage and obstacle he has faced, and reminds us that we can, too. For Sully, success is not an ultimate destination. Every day brings a new fork in the road, another path to choose

The Color Atlas of "Xenopus laevis" Histology provides the first central source on the microscopic anatomy of cells, tissues, and major organs of the adult South African clawed frog, Xenopus laevis. For many years, X. laevis has been a highly popular experimental animal model in many areas of research. The recent development of transgenic Xenopus technology offers the promise that this animal model will be utilized more than ever before. The purpose of this book is to provide the active researcher with a central source of high quality light microscopic color images of the tissues of X. laevis, to aid in the identification of the cells and tissues of interest.
