This lab manual can be used with Saladin ' s Human Anatomy text, or it can be used independently. The illustrations are labeled; therefore, students do not need to bring their lecture texts to the lab. The lab manual can be used in either a one-term or a full-year course. The illustrations are outstanding, and the balanced combination of line art and photographs provides effective coverage of the material. The amount of lecture material in the manual is limited, so there is little material included that is not part of the laboratory experience.

text, has written a stand alone laboratory manual. This series of laboratory manuals (main – no dissection, cat dissection, fetal pig dissection, and rat dissection) will incorporate Terry's clear, concise writing style. These manuals are not associated with any one text and were created for use with any anatomy and physiology text. The manuals also feature incredible artwork and photos. It can be packaged with Ph.I.L.S. 4.0.

Designed for undergraduate courses emphasizing human anatomy and using the cat for dissection, this popular manual (organized by system) offers exercises that highlight the differences and similarities between feline and human anatomy.

throughout. The new 14th edition is available in both a Cat version or a Fetal Pig version. Both versions of the 14th edition are organized into units that correlate directly with the text and include new and updated art to match Hole ' s Human Anatomy and Physiology, 14e.

This full-color manual is designed for students with minimal backgrounds in science who are pursuing careers in allied health fields. Designed to support the thirteenth edition of Hole's Essentials of Human A&P by Shier, Butler, and Lewis, this manual contains 49 laboratory exercises and reports, which are integrated closely to the textbook. Exercises are planned to illustrate and review the anatomical and physiological facts and principles presented in the text and to help students investigate some of these ideas in greater detail.
