#### Book Review: Populists in Power

#### Populists in Power

The main area of sustained populist growth in recent decades has been Western Europe, where populist parties have not only endured longer than expected, but have increasingly begun to enter government. Focusing on three high-profile cases in Italy and Switzerland – the Popolo della Libertà (PDL), Lega Nord (LN) and Schweizerische Volkspartei (SVP) – *Populists in Power* is the first in-depth comparative study to examine whether these parties are indeed doomed to failure in office as many commentators have claimed. Albertazzi and McDonnell’s findings run contrary to much of the received wisdom. Based on extensive original research and fieldwork, they show that populist parties can be built to last, can achieve key policy victories and can survive the experience of government, without losing the support of either the voters or those within their parties. Contributing a new perspective to studies in populist politics, *Populists in Power* is essential reading for undergraduate and postgraduate students, as well as scholars interested in modern government, parties and politics.

#### Populists in Power

Since the early 1990s, long-term care policies have undergone significant transformations across OECD countries. In some countries these changes have responded to the introduction of major policy reforms while in others, significant transformations have come about through the accumulation of incremental policy changes. The book brings together evidence from over 15 years of care reform to examine changes in long-term care systems occurring in OECD countries. It discusses and compares key changes in national policies and examines the main successes and failures of recent reforms. Finally, it suggests possible policy strategies for the future in the sector. With contributions from a wide range of experts across EECD countries, this book is essential reading for academics, researchers and policy-makers in the field of long-term care policy.

#### IPM and Stakeholder Acceptance

The book deals with the present state and problems of integrated pest management (IPM) as relating to stakeholder acceptance of IPM and how IPM can become a sustainable practice. The book covers the implementation of integrated pest management in USA, Canada, Denmark, Germany, Italy, Sweden, Netherlands, China, India, Indonesia, Australia, Africa, and its impact in reducing pesticide use in agriculture. The book also deals with the impact of transgenic crops on pesticide use.

#### IPM and Stakeholder Acceptance

This book sheds light on the effects of the financial and economic crisis in a diverse set of countries of Southern and Mediterranean Europe. Drawing on case studies from Greece, Italy, Portugal, Spain, and Turkey, this book presents a broad and integrative perspective on the impact of the crisis in different rural territories, discussing the similarities and dissimilarities of those impacts together with the resilience strategies adopted in each context. The impacts of the crisis in rural restructuring processes are also taken in consideration in this volume. Based on diverse theoretical and methodological approaches, the book discusses the challenges presented by the new socioeconomic contexts emerging from the crisis, as well as the resilience strategies adopted in rural territories by old and new actors. The book compiles nine empirical chapters dealing with the different cases and a final chapter devoted to the discussion of the shared and dissimilar processes of rural change. This book is a useful and valuable resource for scholars and post-graduate students from different disciplines, such as rural sociology, geography, anthropology, regional planning and agricultural studies.

#### Coronavirus and Society

In this book, leading social researchers from Australia, India, Italy, New Zealand, South Africa, Sweden, the UK and USA discuss the impact of the novel coronavirus pandemic in their respective countries. They explore socio-cultural, health, economic and educational aspects of people's lives, and governments' policies and programmes. Their analyses show how coronavirus infects indiscriminately and impacts discriminately, particularly the disadvantaged and marginalized groups. The pandemic exposes hidden health inequalities and calls for structural changes. It significantly contributes to lessons learned from the pandemic and the understanding of implications for community and social development. The book is a useful resource for further research and action, and policies and programmes to fight the pandemic and support people and communities with care and compassion.

#### Italy's Fiscal Policy

Il volume esamina e valuta la politica di bilancio italiana realizzata nell'anno 2017. Nella prima parte vengono presentati gli impatti macroeconomici e distributivi. Nella seconda parte ci si sofferma sulle conseguenze delle politiche di aggiustamento fiscale. In primo luogo, si analizza se siano più efficaci politiche di aggiustamento dal lato delle entrate, ovvero dal lato delle spese pubbliche. In secondo luogo, si discute come le politiche fiscali attuate tra il 2010 e il 2016 non siano state coerenti con l'obiettivo di favorire la crescita economica di alcuni paesi europei, tra cui l'Italia. Nella terza parte, si indaga il ruolo delle politiche e delle regole europee nell'influenzare i risultati delle politiche fiscali degli stati membri. Nella quarta parte, ci si sofferma sui rilevanti cambiamenti avvenuti negli ultimi anni nell'ambito della struttura della tassazione delle imprese e del ruolo degli incentivi fiscali all'investimento, in particolare in innovazione. Infine, nella quinta parte, si analizzano criticamente sia gli interventi relativi alle politiche sociali attuate attraverso sussidi monetari e agevolazioni fiscali, sia i più recenti provvedimenti riguardanti il sistema previdenziali italiano.

#### China Migration

Through an analysis of Chinese migration to Europe, this volume examines the most pressing migration and integration issues facing many societies today, from the political and policy-based challenges of managing increasingly diverse communities, to individual lived experiences of identity and belonging. In addition to chapters on the UK, France and Italy, the book spotlights one of the most extraordinary examples of Chinese migration to Europe: that provided by the city of Prato, just 20km from Florence in Tuscany, Italy. Renowned for its historic textile industry, Prato is now home to one of the largest populations of Chinese residents in Europe, a phenomenon that is remarkable not only for its magnitude but also for the speed with which it has developed. This edited collection, which brings together twenty-seven separate contributors, deepens our understanding of the case of Prato within the context of Chinese migration to the new Europe.

#### Italy's Economic Growth

This Oxford Handbook provides a fresh overall view and interpretation of the modern economic growth of one of the largest European countries, whose economic history is less known internationally than that of other comparably large and successful economies. It will provide, for the first time, a comprehensive, quantitative "new economic history" of Italy. The handbook offers an interpretation of the main successes and failures of the Italian economy at a macro level, the research--conducted by a large international team of scholars --contains entirely new quantitative results and interpretations, spanning the entire 150-year period since the unification of Italy, on a large number of issues. By providing a comprehensive view of the successes and failures of Italian firms, workers, and policy makers in responding to the challenges of the international business cycle, the book crucially shapes relevant questions on the reasons for the current unsatisfactory response of the Italian economy to the ongoing "second globalization." Most chapters of the handbook are co-authored by both an Italian and a foreign scholar.

#### Leadership and Policy

This volume builds upon emergent understandings about educational leadership and policy in hopes of continuing to refine our understanding of what effective leadership means in linguistically and culturally diverse school contexts. The volume seeks to entrench a deeper understanding of the broader leadership policies and practices that promote the success of linguistically and culturally diverse students, while also recognizing that effective leadership can be highly dependent on context. It offers original empirical research that enhances an understanding of the interdependencies between leadership, culture, language, and policy (i.e., the mechanisms that engender or hinder successful stewardship of linguistic and cultural plurality). The confluence of school leadership, linguistic diversity, and multiculturalism makes this volume unique, especially considering the pace at which global migration continues to accelerate, coupled with the need to accommodate an array of diverse learning needs in today's schools.
