Kent Compact Wood Heater Operating Manual

However well made and efficient your stove is, dry, well seasoned wood is the key to wood stoves working well. You should always order wood by length or solid measure, rather than by weight. Green or semi-seasoned wood will obviously have a high moisture content and weigh quite a bit more than seasoned wood which has dried out properly.

Find out how Kent Calisto compares to other Wood Heaters. Know better, choose better. Compare all. Lucy Greater Melbourne (Outer), VIC. Great heater. published 2 years ago. We replaced our old Kent wood fire with a Calisto Medium sized one. We find it heats up our space nicely. We are getting a little older now so we chose it because of the ...

Kent Calisto | ProductReview.com.au

- Make sure your wood is dry – wet or green wood is hard to light, burns poorly and the evaporating water cools the fire which creates smoke.
- Light the fire using sufficient kindling to establish a hot fire quickly.
- Use small split wood to get the fire well established.
- Run combustion heaters on high burn

OPERATING AND MAINTAINING A WOODHEATER

Dartmoor 5 Se 5Kw Wood burning or Multi-fuel Stove. Dartmoor 5 Se 5Kw Wood burning or Multi-fuel Stove. This compact, DEFRA Approved, robust stove incorporates a straight forward air wash system providing clean glass, with a ' spinning ' primary air control, to give direct control over the burning rate. The option of an easily fitted drop-in riddling grate and heat deflector shields, completes a great all round specification for this superb little 5 Kw stove.
