Pearson FlexText ...setting you up for success in school and at work

The study of economics requires a different style of thinking from what you may encounter in other courses. Economists make extensive use of assumptions to break down complex problems into simple, analytically manageable parts. This analytical style, while not ultimately more demanding than the styles of thinking in other disciplines, feels unfamiliar to most students and requires practice. Our experience has taught us that what first-year economics students want most from a FlexText is help in mastering course material to do well on examinations. We have developed this FlexText to respond specifically to that demand.

Questions that drive interest, applications that illustrate concepts, and the tools to test and solidify comprehension. Students come into their first Economics course thinking they will gain a better understanding of the economy around them. Unfortunately, they often leave with many unanswered questions. To ensure students actively internalize economics, O'Sullivan/Sheffrin/Perez use chapter-opening questions to spark interest on important economic concepts, applications that vividly illustrate those concepts, and chapter-ending tools that test and solidify understanding.
