The silvered-glass mirrors found throughout the world today first got their start in Germany almost 200 years ago. In 1835, German chemist Justus von Liebig developed a process for applying a thin...

Who Invented the Mirror | Mirror Invention | Live Science

The word mirror derives from the French " mirour, " from the Latin " mirari " —to admire. (The Romans themselves, however, used the word " speculum, " from " specere " —to look, or behold.) METAL MIRRORS — Mirrors were used by the ancient Egyptians as early as c.2900BC. These were made of polished bronze shaped into flat round discs—in representation of the sun-god Re—with handles of wood, metal or ivory.
