To support the broadening spectrum of project delivery approaches, PMI is offering A Guide to the Project Management Body of Knowledge (PMBOK® Guide) – Sixth Edition as a bundle with its latest, the Agile Practice Guide. The PMBOK® Guide – Sixth Edition now contains detailed information about agile; while the Agile Practice Guide, created in partnership with Agile Alliance®, serves as a bridge to connect waterfall and agile. Together they are a powerful tool for project managers. The PMBOK® Guide – Sixth Edition – PMI's flagship publication has been updated to reflect the latest good practices in project management. New to the Sixth Edition, each knowledge area will contain a section entitled Approaches for Agile, Iterative and Adaptive Environments, describing how these practices integrate in project settings. It will also contain more emphasis on strategic and business knowledge—including discussion of project management business documents—and information on the PMI Talent Triangle™ and the essential skills for success in today's market. Agile Practice Guide has been developed as a resource to understand, evaluate, and use agile and hybrid agile approaches. This practice guide provides guidance on when, where, and how to apply agile approaches and provides practical tools for practitioners and organizations wanting to increase agility. This practice guide is aligned with other PMI standards, including A Guide to the Project Management Body of Knowledge (PMBOK® Guide) – Sixth Edition, and was developed as the result of collaboration between the Project Management Institute and the Agile Alliance.

PMI Scheduling Professional Certification (PMI-SP) - 2nd Edition These questions are similar to the ones asked in the actual Test. How should I know? I know, because although I have been working as a Project Manager for many years, I have myself recently certified with the latest version of the Scheduling Professional Certification test. Before you start here are some Key features of the Certification Exam. Eligibility requirements: Secondary diploma (high school diploma / global equivalent), Plus 5000 hours of project scheduling experience, Plus 40 hours of project scheduling education. OR Four year degree (bachelor's or the Global equivalent), Plus 3500 hours of project scheduling experience, Plus 30 hours of project scheduling education. The exam is Computer based and you have 3.5 hours to answer 150 Questions. Candidates must demonstrate understanding of Schedule Strategy, Schedule Planning and Development, Schedule Monitoring and Controlling, Schedule Closeout and Stakeholder Communications Management. The Questions are (mostly) multiple choice type and there is NO penalty for an incorrect answer. Some of the Questions have more than one correct answer. You must get ALL the options correct for you to be awarded points. You are not allowed to use any reference materials during the certification test (no access to online documentation or to any system). Clearing the Certification will not automatically lead you to a job. However a Certification with some experience will certainly open a lot of doors for you. So if you have little or no experience, you should get yourself certified, get some project experience, and then the whole of the project management World open for you to explore. Helping you with the first step on you ladder to success is this book! Some UNIQUE features of this Book: - There is NO Other quality material in the market for this Certification exam. - The author has himself cleared the exam. - All questions are multiple choice format, similar the questions you will get in the actual exam. - Over 300 authentic questions, testing the exact same concepts that will be tested in Your exam!

More than 80 percent of all projects start with underestimated schedules and costs, and are doomed to exceed projections. This concise book demonstrates how to establish realistic estimates, how to control a projects schedule and costs, and how to develop the projects plan and processes for successful project completion.
