These essays reveal Mikhail Bakhtin (1895-1975)—known in the West largely through his studies of Rabelais and Dostoevsky—as a philosopher of language, a cultural historian, and a major theoretician of the novel. The Dialogic Imagination

The volume also contains a lengthy introduction to Bakhtin and his thought and a glossary of terminology. Bakhtin uses the category "novel" in a highly idiosyncratic way,

For him, the novel is not so much a genre as it is a force, "novelness," which he discusses in "From the Prehistory of Novelistic Discourse." Music, we are often told, is a language. But if music is a language, then who is speaking? The Composer's Voice tries to answer this obvious but infrequently raised question. In

so doing, it puts forward a dramatic theory of musical expression, based on the view that every composition is a symbolic utterance involving a fundamental act of impersonation. The voice we hear is not that of the composer himself, but of a persona--a musical projection of his consciousness that experiences and communicates the events of

In particular, he discusses the implications of his theory for performance. According to the dramatic view, not only every singer but

every instrumentalist as well becomes a kind of actor, assuming a role that functions both autonomously and as a component of the total musical persona. In his analysis of the problems inherent in this dual nature of the performer's job, Mr. Cone offers guidance that will prove of practical value to every performing musician. He has much to say to

He recommends an imaginative participation in the component roles of musical work, leading to a sense of identification with the persona itself, as the path to complete musical understanding. And this approach is shown to be relevant to a number of specialized kinds of listening as well--those applicable to analysis, historical

explanation of musical "meaning" based on an interpretation of the art as a coalescence of symbolic utterance and symbolic gesture. While not essential to the main lines of the argument, it suggests interesting possibilities for further development of the dramatic theory.
