Arctic Book Review: Relics of the Franklin Expedition

The Rae-Richardson Arctic Expedition embarked in 1848 along the route of the Franklin's ships. They found no trace of the expedition, but heard Inuit accounts of some 30 members of the crew found dead at a makeshift encampment on King William Island. The mutilated corpses and contents of the kettles revealed desperate acts of cannibalism. This story was supported by hundreds of bone fragments found with cut marks on the bones consistent with de-fleshing.

Artifacts Unveiled from the Doomed Franklin Expedition

There are 690 items divided between material associated with the 1845 Franklin expedition and polar equipment and clothing associated with later Arctic and Antarctic expeditions. Franklin expedition of 1845. Our polar collections comprise, firstly, relics of the Franklin expedition of 1845.
