As an owner, it is your responsibility to ensure that the foods fed during summer are abundantly rich in Vitamin A. This particular vitamin becomes depleted during hibernation, as it is stored in the tortoise's body, and is drawn on while it is asleep. Offer carbs, such as carrots, squash, and alfalfa. Avoid fruits.

Keep your tortoise's habitat toasty and damp, like the warm countries these pets come from. The degree of heat and humidity in the habitat will depend on their breed: Russian Tortoises do best in slightly warmer, drier environments with about 50% humidity; while Greek Tortoises like it slightly cooler and wetter, with up to 80% humidity.

~~Tortoises as Pets: Care &
Information | PetSmart~~

Humidity levels for Russian tortoises must be kept relatively low. An ideal humidity level runs between 40% and 50% to keep your tortoise in tip-top shape. Whether your tortoise is in an
