Integrative Medicine, by Dr. David Rakel, provides the practical, evidence-based guidance you need to safely and effectively integrate complementary and alternative medical treatments into your practice. This medical reference book lays the framework for making the best use of these therapeutic modalities and understanding the mechanisms by which these interventions work, keeping you at the forefront of the trend toward integrative health care. Incorporate therapeutic integrative medicine modalities into clinical practice through the "Tools for Your Practice" section that offers how-to application for recommending meditation, prescribing probiotics, and how to do an elimination diet. Apply integrative treatments for a full range of diseases and conditions including autism, stroke, chronic fatigue syndrome, and various forms of cancer...see how to advise patients on health maintenance and wellness...and get valuable advice on topics such as meditation, diet, and exercises for back pain. Avoid potential complications with recommended dosages and precautions. Enhance patient care with therapy-based guidance and printable patient education guides. Implement proven integrative treatments for various diseases thanks to an evidence-based therapeutic approach. Weigh the likely effectiveness of various treatments vs. their potential harm with helpful icons based on the SORT (Strength of Recommendation Taxonomy) method. Validate potential interventions through the latest research in genomics and advanced imaging technologies, such as MRI. Access the full text, image bank, downloadable Patient Education Guides, and video collections online at www.expertconsult.com. Rakel provides evidence-based guidance to apply integrative medicine in clinical care.

Drawing on solid scientific evidence as well as extensive first-hand experience, this manual provides the practical information you need to safely and effectively integrate complementary and alternative treatment modalities into your practice. It explains how alternative therapies can help you fight diseases that do not respond readily to traditional treatments... presents integrative treatments for a full range of diseases and conditions, including autism, stroke, chronic fatigue syndrome, and various forms of cancer...explores how to advise patients on health maintenance and wellness...and offers advice on topics such as meditation, diet, and exercises for back pain. 24 new chapters, a new organization, make this landmark reference more useful than ever. Presents a new organization, with numerous section headings and subheadings, for greater ease of reference. Provides additional clinical practice and business considerations for incorporating integrative medicine into clinical practice.

Modern family healthcare is under a lot of pressure, from insecurity when it comes to diagnosis and prescription behaviour, to delivering quality assistance while balancing a large number of patients, There is need for reform - but before reform, there must be a vision. Not only for daily healthcare, but also for education - because in education lays the roots for social change. By means of real patient testimonies and examples of daily consultations, this book focuses on family medicine. It pays special attention to the practical side of social determinants, diagnostics and therapy, and surrounding factors. Family Medicine and Primary Care emphasises the importance of qualitative work by general practitioners, correct education, and informed policies. It is a practical guide for high-level family medicine, with input from international experts. AUTHOR: Jan De Maeseneer is Head of the Department of Family Medicine and Primary Health Care at Ghent University. Since 1996 he has been a member of the Wonca International Classification Committee (WICC), which produces the International Classification of Primary Care, and of the Research Committee from the World Organisation of Family Doctors. He is the Director of the International Centre for Primary Health Care and Family Medicine, designated by the World Health Organisation as a "WHO-Collaborating Centre on Primary health Care". He is an Honorary Fellow of the Royal College of General Practitioners (London, UK) and was laureate of the Belgian Francqui Chair in 2014-2015. SELLING POINT: * Written by the European expert on family medicine, this book offers theory enforced with practical case studies and reflections

An accessible guide to family health care discusses drug interactions, symptoms, first aid, and how to choose a family doctor, including a new research about hormone therapy and heart surgery.

Textbook of Family Medicine, 3/e has been thoroughly revised and updated as per the requirement of general practitioners. Chapters contributed from a number of national and international experts in their respective fields makes this an authoritative text. The chapters have been thoroughly revised not only to incorporate symptomatic approach and management at primary care level but also the advanced treatment options available in tertiary care centres. With its contemporary approach and lucid presentation, the text would be of immense value to the general practitioners as well as students pursuing courses in
