~~The culture of farming arrived in Britain some 6,000 years ago, marking the beginning of the Neolithic period (New Stone Age). Previously, in the Mesolithic period (Middle Stone Age) Britain had been home to a population of hunter-fisher-gatherers. This transition to farming marked a huge shift in cultural life in the region.~~

~~The Farming of Prehistoric Britain~~

~~FIRST FARMERS (FROM 4000 BC) Perhaps the most important development in human history, farming was first introduced to Britain around 4000 BC. The people who brought the techniques to the island must have travelled from Europe by boat. Although they farmed pulses, barley and wheat, people still relied on wild food and resources.~~

~~An Introduction to Prehistoric England | English Heritage~~

~~Farming of crops and domestic animals was adopted in Britain around 4500 BC, at least partly because of the need for reliable food sources. The climate had been warming since the later Mesolithic and continued to improve, replacing the earlier pine forests with woodland .~~

~~The Farming Of Prehistoric Britain~~

~~Goods and skills must have been bartered or exchanged in prehistoric Britain from early times, but very little evidence has survived. The advent of farming in about 4000 BC brought with it the earliest surviving traded goods: stone-headed axes. Greenwell's Pit, one of over 400 prehistoric flint mines at Grime's Graves, Norfolk.~~

~~Francis Pryor - regular contributor on Channel 4's "Time Team" and the man behind the "Britain BC" and "Britain AD" television series - maintains that early farming in Britain has been largely misunderstood, due to a loss of contact with the countryside and failure to understand prehistoric farming methods. To redress this problem, this book reconstructs the lives of prehistoric farmers, with the author using his experience as a professional farmer to provide details on crop cultivation and ...~~
