The demand for a miniature all position diaphragm carburetor prompted Tillotson to design and develop the "HS" series. This small compact unit, only a 1-1/2 inch cube, is versatile in application because of its lightweight and compact size. Even though the carburetor is extremely minute, it still comprises a self-contained fuel pump and filtering screen.

by Carl Pruitt. The Tillotson carburetor is used on small engines designed primarily for go-carts. You can adjust the carburetor in just a few minutes. The carburetor uses a low-speed and high-speed set screw that you can adjust fairly easily with just a screwdriver. The high-speed set screw includes a "T" on the end, allowing you to adjust the screw by hand.
