Think ASEAN! explores how companies should think of ASEAN as one borderless market that requires different marketing strategies to capture. It offers fresh

perspectives to
marketers all over the
region on the upcoming
trends of regionalization
that can cause
significant changes in
future marketing
activities. It argues that
ASEAN marketers
should not only be
concerned about their
local or global but also
their regional marketing
activities. The book

contains three parts.

Part I describes the landscape of ASEAN and explains clearly why ASEAN marketing is needed. Parts II and III discuss companies that have been very successful in implementing ASEAN Marketing. Part II looks at short cases of companies to explore their core marketing

strategies; these companies include Bengawan Solo (Singapore), Dji Sam Soe (Indonesia), Goldilocks (the Philippines), Royal Selangor (Malaysia), Black Canyon (Thailand) and Number One Tonic Drink (Vietnam). Part III contains more comprehensive cases of

selected companies including AirAsia and Yamaha. Features of This Book § Think ASEAN! is the first publication of the Philip Kotler Center for ASEAN Marketing. § Special foreword written by Ong Keng Yong, the Secretary-General of ASEAN § There are several marketing models developed by the

authors e.g., the 4C Diamond sub-model and the Sustainable Model. § The 20 companies featured as case studies are excellent working models of companies that have used the positioning-differentiation-brand triangle successfully to market their brands.

Messages, Signs, and Meanings can be used directly in introductory courses in semiotics, communications, media, or culture studies.

Additionally, it can be used as a complementary or supplementary text in courses dealing with cognate areas of

Investigation

(psychology, mythology, education, literary studies, anthropology, linguistics). The text builds upon what readers already know intuitively about signs, and then leads them to think critically about the world in which they live - a world saturated with images of all kinds that a basic knowledge of

semiotics can help filter and deconstruct. The text also provides opportunities for readers to do "hands-on" semiotics through the exercises and questions for discussion that accompany each chapter. Biographical sketches of the major figures in the field are also included, as is a convenient glossary of
